Fast learner

Highly motivated and ambitious

Dedicated to achieving goals

Friendly demeanor

EDUCATION

Bachelor in Information & Technology

Patan Multiple Campus, Lalitpur [2021 - Present]

POSITION OF RESPONSIBILITY

Event Head — Blood Donation Program
organized by SEE Batch 2018
Dec 2018

PROJECTS

BIT INFO NEPAL (bitinfoNepal)

Developed BIT INFO NEPAL, a website featuring a variety of resources to help BIT TU students prepare for exams, including access to past questions, a micro syllabus for all semesters, filtered BIT notices only, mock test exam platform and many more.

Trafalgar: Virtual healthcare for you

Created a responsive website for Trafalgar, a virtual healthcare provider, using HTML and CSS. This project allowed me to gain skills in frontend development, including creating a seamless user experience and designing for mobile and online platforms.

CRUD in React

Implemented CRUD functionality using React, allowing users to create, read, update, and delete data in an application. Utilized React's state management capabilities to deliver a smooth and efficient user experience.

Hotel Demo Site

As a first upwork project, I created a hotel booking demo website using only html and CSS. It was not a fully flexed website, and it was only for demonstration purposes.

AB Clean Feed

Created a Chrome extension that blocks ads on Nepali news portals, contributing to a better user experience.
